## Our product Range :-

- 1:- Rcc Hume Pipes &
- Spigot & socket pipe

### Product Specification

The finest grade cement used to fabricate these Industrial **Np2/Np3, Np4, IS, P1 Cement Pipes** with high quality, & design. These pipes are available in different dimensions and thickness, which can be customized as per the needs and demands of our clients.

Furthermore, our extensive range of Cement Pipes has following main features:

**\* 125mm to 2200mm of rcc cement/ S & S pipe**

- \* High pressure taking capacity
- \* Longer service life
- \* Accurate composition
- \* Perfect finish
- \* High strength

## **2:Cement Ring**

### **Product Specification**

Our company is engaged in manufacturing and supplying of cement pipe. These are made up high quality cement & accurate construct of these pipes assure durability & high pressure taking capacity. They are available in different sizes as per the requirement and specifications of the clients. We take bulk orders from the clients and deliver cement pipes with in the given time span.

## **3:- RCC Half Round Pipe**

### **Product Specification**

We are offering a wide range of RCC Half Round Pipe. These are made up high quality cement & accurate construct of these pipes assure durability & high pressure taking capacity. The offered range is durable and can survive high pressure. Furthermore, client can avail them at market leading price.

## **4:- RCC Manhole Cover**

We are offering a wide range of RCC Manhole Cover. Our range is known for its durability, tensile strength, smooth finishing and environmentally safe features. The offered range is durable and can survive high pressure. Furthermore, client can avail them at market leading price.

**\*we design according to clients requirement.**

## 5:- septic tank

### **Product Specification**

We are offering a wide range of Septic tank. These are made up high quality raw material construct of these pipes assure **durability & high pressure taking capacity**. The offered range is durable and can survive high pressure. Furthermore, client can avail them at market leading price.

**\*According to client's requirement.**

---

## 6:- RCC Cement bench

### **Product specification**

We are offering a wide range of RCC cement bench. These are made up high quality raw material construct of these RCC Cement bench assure durability & high pressure taking capacity. The offered range is durable and can survive high pressure. Furthermore, client can avail them at market leading price.

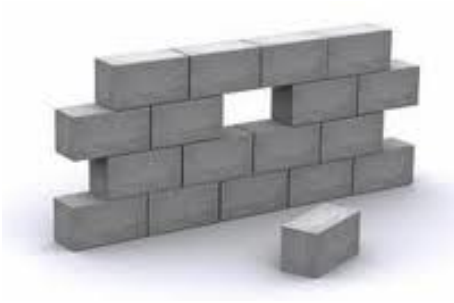

## 7:- RCC Cement chambers

### **Product specification**

We are offering a wide range of RCC Cement chamber. These are made up high quality raw material construct of these RCC Cement Chamber assure durability & high pressure taking capacity. The offered range is durable and can survive high pressure. Furthermore, client can avail them at market leading price.

## 8:- CLC block

### Product specification

Our **CLC bricks** are environment friendly and manufactured from common natural raw material. The energy consumed in the production process is only a fraction compared to the production of other materials and emits no pollutants and creates no toxic products or by products. These bricks are highly strong and of customized shape thus requiring less amount of cement and plastering and giving an even shape to the construction.

\* available in all sizes.

## 9:- Paver block

Our organization is engaged in manufacturing and exporting superior quality Pavers

The range is precision manufactured using high grade raw material, which is sourced from eminent vendors of the industry. Engineered to perfection, our range is widely known for its dimensional accuracy, strength, Competitively priced

## 10:-hollow/solid block

### Product specification

Cement concrete hollow blocks have an important place in modern building industry. They are cost effective and by virtue of their good durability, fire resistance, partial resistance to sound, thermal insulation, high speed of construction. normal clay building bricks and less mortar is required, faster of construction is achieved

\*size:- Any size according to client's requirement

## 11:- fencing pole

### product specification

We are a prominent manufacturer and supplier of Reinforced Cement concrete(RCC) Poles. Available with us is a wide range of Durable Cement poles, which is manufactured as per the market demand to meet the exact equirements of the clients.

- \*easy & speedy to install.
- \*high safety features.
- \*reliable & durable structure.
- \*tolerant to rain, sun & wind.
- \*simple maintenance.

## 12:-Ventilation block

### Product Specification

We are offering a wide range of RCC Ventilation block These are made up high quality raw material construct of these Ventilation block assure durability & high pressure taking capacity. The offered range is durable and can survive high pressure. Furthermore, client can avail them at market leading price.

## 13:- flyash brick

### Product Specification

Fly Ash bricks are made of fly ash, lime, gypsum and sand. . **The fly ash bricks are comparatively lighter in weight and stronger than common clay bricks.** material in the manufacture of bricks will not only create ample opportunities for its proper and useful disposal but also help in environmental pollution control to a greater extent in the surrounding areas of power plants. In view of superior, quality and eco-friendly nature, and government support the demand for Fly Ash Bricks has picked up

## Our Client Base:

- RELIANCE INDUSTRIES.
- FERNAS CONSTRUCTION INDIA PVT LTD.
